Legislative Assembly Approves Increase in Gasoline Taxation

Four Opposition Members Sole Ones to Oppose Passage of Increased Revenue Bill.

Quebec. — The Legislative Assembly, Thursday afternoon, adopted the amendments to the Gasoline tax from five to six cents per gallon. Second reading was approved by a vote of twenty-eight to four. Messrs. Gault, Duplessis, Sauve and Barre opposing the bill.

The last major act of the assembly for 1931, prior to adjourning on January 11th, was the passage of a measure aimed to prevent Mayor Houde from dismissing Fernand Dufresne, director of police for the City of Montreal.

The documents went forward to Montreal Wednesday night and all is now ready for the setting of the programme in operation.

HAS 510,000 SIGNATURES

Peace Petition to Be Presented Early in January.

Ottawa. — Prime Minister R. B. Bennett will be presented with the Canada-wide disarmament petition during the week of January 11. It was announced here today. In two volumes, each five feet high, the petition bears the signatures of over 510,000 Canadians.

Pope's Encyclical Pleads Protestant and Catholic Unity

In Christmas Message to World, His Holiness Addressed Paternal Exhortation to All Protestants to Follow Example of Catholics in Invoking Protection of the Virgin Mary as a Mediator and Intercessor With God — Establishes New Mass to Be Known as "Maternity of Mary."

Vatican City. — A call for the union of Protestants and Catholics the world over was issued by Pope Pius XI Saturday in an encyclical entitled "Lux Veritatis." The encyclical, meaning "the light of truth," and dated on Christmas, commemorates the fifteenth hundredth anniversary of the Council of Ephesus, which condemned the doctrines of Nestorius, Patriarch of Constantinople.

in an admirable harmony of mind and heart in proclaiming the divine maternity of the Virgin. In inviting dissident churches to return to the fold of Rome, the Pope cited history to show that the Catholic Church always had been the central authority. He recalled that after the bitter controversy of Ephesus "in that most grave extremity" the entire Christian hierarchy recognized the supreme authority of the Bishop of Rome.

As Old Year Ends Slight Hopes Are Maintained to Improve Exchanges

MASS WAS BROADCAST

Pope Pius Conducted Service Personally

Vatican City. — A Mass conducted personally by Pope Pius, the first religious ceremony ever to be broadcast from here, went on the air over the Vatican City station, last Sunday, December 27.

The mass started at 10 a.m., Vatican City time, which corresponds to 4 a.m., E.S.T. The station used a wave length of 50.26 metres.

Speculative Interest Totally Lacking During Past Week on Canadian Exchanges.

Toronto. — A wearied, puzzled and somewhat discouraged stock market welcomed the Christmas holiday week with a feeling of distinct relief. This week, Canadian stock market traders turned from the market which involved only three and a half sessions, to enjoy even for a brief period, some relaxation after a trying year.

Town's Brieflets

For every home in 1932 we wish our readers a new joy, for every day a new satisfaction.

A DANCE — On Thursday night, December 31st, the eve of the coming New Year, the Drummondville Golf & Country Club will be giving a dance. All arrangements have been made to assure all dancers an evening of enjoyment.

FIRE BRIGADE CALLED OUT — A fire, the cause of which was undetermined, broke out in the fire brigade to the Rocheleau block on two different calls on Saturday.

HUNTING FATALITY — Mr. Victor Grenon of Village St. Joseph died on Saturday of wounds received from a rifle shot, while hunting in the woods near Manseau.

AUTO BURNED — A Peers automobile, the property of Mr. Laflamme of Fortier & Co., was destroyed by fire on Thursday night.

"La Guignolée" To-Night

Old Tradition Will Be Revived To-Night — Volunteers Will Ask Bread and Cloths for the Poor.

Members of the St. Vincent-de-Paul Society and of the Snowshoe Club, "Les Pleds Legers" will tonight make their annual collection called "La Guignolée". They will pass through all the streets of the city and stop at every house and there in a very old song, ask that you give for the poor.

This worthy deed of the St. Vincent-de-Paul Society should receive the approval of every citizen of this community. Here as well as anywhere else, orphans will suffer cold and hunger; there are many heads of families without work and in spite of every sacrifice and renunciation which they will impose upon them, will nevertheless be unable to give their wives and children, the absolute necessities.

"La Guignolée", an old tradition imported from France and dating back from the French regime in Canada, will with the money, food and clothes collected, will at the least appease for a time these sufferings.

To you who live with all the comforts and conveniences of life, the occasion is offered to lighten the burden of these unfortunates and help make for them, life worth living.

So, when "La Guignolée" knocks at your door to-night, give generously, give plenty, give until it hurts!

Simultaneous Re-Broadcast by Local Station — Announced by Canadian Marconi Company — To Give Reception Practically All Over World.

Of great interest to radio listeners and to the radio industry generally is the announcement by Canadian Marconi Company officials that programmes from Station CFCF will be simultaneously re-broadcast by short wave from the new transmitter of the Marconi Trans-Atlantic Beam Wireless Station here in Drummondville. To start with, all CFCF programmes from 6 p.m. to midnight will be broadcast, and later it is expected that the new transmitter will be tied in with CFCF during the entire 16 hours of daily operation. The call letters will be VE9DR.

This station will be the highest powered short wave station in Canada and it is expected to give reception practically all over the world. Short wave receivers are quickly gaining in popularity and this new Marconi station was built.

Proposal of Relief Tax on Spirits Heard — Stamp to Indicate that Purchaser of Liquor Has Contributed a Small Sum to Unemployment Relief.

Quebec. — Ere long, each bottle of hard liquor sold by the Quebec Liquor Commission may bear a stamp setting forth that the purchaser has contributed a small sum to the relief of Quebec unemployed.

Reconstruction of Bill Requested by Archbishop — Mexico City. — Most Reverend Pascual Diaz, Catholic Archbishop of Mexico, asked President Ortiz Rubio to use all his influence to secure reconsideration of the bill passed by the Legislature limiting the number of priests in Mexico City and the federal district to one for each 50,000 population.

Two Bright Meteors Seen From New England Points — Cambridge, Mass. — Unusually bright meteors were reported last Thursday from several New England points.

Paris. — Air speeds of five hundred miles an hour, cutting the time between New York and Paris to six hours, were predicted to be within the bounds of possibility today by Henry Farman, aviation pioneer, work on whose stratosphere plane is now progressing at Billancourt.

Province of Ontario Again Shows Deficit

Provincial Treasurer Reports an Excess of \$552,282.86 in Expenditures Over Revenue for Fiscal Year Ending October, 1931.

Toronto. — The Province of Ontario is not as fortunate in the administration of its finances as its sister province, Quebec, according to the report of the Provincial Treasurer, Hon. E. A. Dunlop, which shows a deficit of \$552,282.86. The ordinary revenue for the fiscal year ending October 31, 1931, was \$54,392,349.41 and the ordinary expenditure \$54,944,632.27.

Interest on public debt accounted for the largest single increase in expenditure, an item of \$1,666,000, while the largest decrease in expenditure was in public highways, one of \$697,000. Educational grants increased by \$466,000, game and fisheries \$66,000, public health service \$76,000, public institutions \$115,000, unemployment relief (direct) \$65,000, old age pensions, \$128,000, mothers' allowances \$110,000, government contribution to teachers' and inspectors' superannuation fund \$83,000, public service fund \$117,000, and agriculture \$190,000. Decreases occurred in the Attorney General's department of \$321,000, mines department of \$106,000 and public works \$117,000.

Motor Vehicles Take Lives of 1290 Persons in Canada

During the Year 1930 — Millions Spent on Paved Highways — Motor Vehicles Registrations Showed Increase Over 1929.

According to the report of the Bureau of Statistics just issued \$64,265,000 was spent during 1930 on construction of provincial highways and local roads receiving provincial subsidy and \$21,464,248 was spent on maintenance of these roads, making a total of \$85,729,248. This does not include any expenditures by rural municipalities on roads receiving no provincial subsidies or urban streets. On bridges and ferries under the jurisdiction of the provincial highway departments further expenditures were made of \$5,733,209 for construction and \$1,638,569 for maintenance during 1930 on highways, ferries and bridges of \$93,101,050.

The provincial debt due to highways which was outstanding at the end of the year was in the neighborhood of \$326,650,000. The exact figure was not obtainable due to some of the provinces not issuing separate bonds for highway purposes. There were 80,498 miles of surfaced highway in Canada and 394,373 miles of all classes of highway. For rural roads receiving no provincial subsidy estimates were included. Ontario had the greatest mileage of surfaced highway with a total of 44,740 miles, or 55 per cent, of the total for Canada, Quebec was second with 13,302 miles and British Columbia was third with 7,477 miles.

Reconstruction of Bill Requested by Archbishop — Mexico City. — Most Reverend Pascual Diaz, Catholic Archbishop of Mexico, asked President Ortiz Rubio to use all his influence to secure reconsideration of the bill passed by the Legislature limiting the number of priests in Mexico City and the federal district to one for each 50,000 population.

Two Bright Meteors Seen From New England Points — Cambridge, Mass. — Unusually bright meteors were reported last Thursday from several New England points.

Paris. — Air speeds of five hundred miles an hour, cutting the time between New York and Paris to six hours, were predicted to be within the bounds of possibility today by Henry Farman, aviation pioneer, work on whose stratosphere plane is now progressing at Billancourt.

Petition Was Rejected

Claiming that the Boring Machine Now Used in Street Works Was Injust Towards Unemployed Employees Facts Given.

A petition requesting that the city cease to use the boring machine now being used in the sewer constructions of this city was presented to the town council at its last meeting, and unanimously rejected. The claim that this machine is taking the place of unemployed was given as absolutely unfounded. The facts are that with the same amount of money, the city will be able to do more work and thus improve the general conditions in town. There is absolutely nothing taken from unemployed. With the use of the machine, it is only possible to double or triple the amount of the work done at the same cost.

Santa Claus Was Enthusiastically Received Here

Hundreds of Children Acclaimed the Dear Old Man on his Arrival Here Friday.

At 2 o'clock, on Christmas afternoon, as had been announced in "The Spokesman", the always popular annual visitor known under the exotic name of Santa Claus, made a glorious entry into D'ville, clad in his gay coloured raiments. He entered town at the C. N. R. station, then rode in a "trainau canadien" decorated with Xmas trees and pulled by ponies to replace the traditional reindeers. Santa Claus had to leave at Montreal for a well deserved rest after their long and fast journey here from the polar countries. Applauds a plenty greeted him along the streets he passed through, and the old voyager seemed as happy as all the kiddies surrounding him, smiling broadly beneath the streams of his long beard as white as the virgin snows of the far away north whence he hails.

The "Pieds Legers" snowshoe club, with drums and bugles resounding, accompanied the latter in parade and him to the K. of C's Hall where the guests spoke to all the kiddies present, telling them how happy he was to see so many of them. To greet him, good little boys and charming little girls all, and explaining that he was always glad to come back annually to our beautiful town. Hundreds of toys and bags of sweets were distributed to the children of St. Croix Orphanage and of the Knights of Columbus. Rev. Canon Melancon, Mayor W.

London Press Approves Verdict of Reparations Investigators

British Newspapers See Attitude of United States as Expressed in Congress Chief Stumbling Block to the Satisfactory Settlement of War Debts — Acknowledges that Experts Have Completed Difficult Task Well.

London. — Prospects for reparations negotiations of the future have been brightly brightened, the Times said today, commenting on the finding of the Young Plan advisory committee that all reparations and other war debts are in the need of adjustment. The consensus of London editorial opinion was that the committee had performed its difficult task well and satisfactorily. The unanimity expressed in the report by the eleven financial experts of various powers who considered the problem at Gensel, Switzerland, was generally described as a most significant feature.

The Times devoted its "leader" to a general discussion of the work of the Basel committee, the bankers' committee, which has also been considering Germany's agreements, and the memorandum of President Hoover. It expressed the opinion that the outlook for reparations discussions had become more promising as the recent moratorium discussions in Congress have shown it to be.

The Daily Telegraph commented in a similar vein. After remarking that the Basel report coincided with the Hoover moratorium approval by the House of Representatives and the Senate at Washington, the Telegraph said: "It remains to be seen how the popular attitude reflected in the Congressional resolution is to be related to the findings of the conference."

This newspaper added the opinion that speeches at Washington have shown Congress to be strongly of the mind to return to "the American attitude of isolation from the rest of the world and its affairs." In the speeches referred to the newspaper saw little understanding of the impossibility of such an attitude of isolation for a country directly involved as a trading and creditor nation of first importance in the world's economic misfortunes.

The Daily Mail's special correspondent at Basel cabled "it would be impossible to exaggerate the world-wide importance of this report." (Continued on page 4)

Fire Losses in 1931 Show an Increase

Toronto. — Fire losses in Canada during the week ended Dec. 22, 1931, are estimated by the Monetary Times at \$153,700, compared with \$911,875 for the previous week, and \$436,300 for the corresponding week of 1930.

From Jan. 1, 1931, to Dec. 22, 1931, fire losses totalled \$36,285,934, compared with \$28,330,715 for the period from Jan. 1 to Dec. 23, 1930.

Germany Cannot Maintain Total of Reparation Payments

Plan Advisory Committee Experts of Opinion Any Claim Made by Germany of Inability to Conditional Reparations Is Justified — With Element of This Big Problem Early Return of Prosperity Predicted.

Any claim of Germany's inability to pay her reparations payments, beyond what she is able to do last Thursday by the re-hearing Young Plan advisory committee in its report, made at last Wednesday evening a long inquiry into the reparations problem, and a largely responsible for the paralysis of the world's concentrated action which governments can take.

It is impossible to fix any definite time when action is most urgent in a much wider field than the reparations problem, and this is one of the most important questions which the world's governments can take.

It is impossible to fix any definite time when action is most urgent in a much wider field than the reparations problem, and this is one of the most important questions which the world's governments can take.

VANQUISHED BOOST VICTORS

While Chinese statesmen and diplomats are trying to work up patriotic sentiment and arouse the sympathy of their countrymen outside the war zone for those on the inside, it would appear from the above photograph that any sympathy thus aroused would be wasted. The picture, made in Mukden, Manchuria, now in the hands of Japanese invaders, shows a parade of citizens of the captured city as they marched to a demonstration to protest against League of Nations interference. The Chinese marchers carried Japanese banners and flags, and were surprisingly enthusiastic in praise of their conquerors.

LOCAL NEWS

France Will Start Building Churches

Mr. Danets, president of the Dominion Textiles, presented all of the employees of the Drummondville Cotton Co., with a nice box of chocolates, on the occasion of Christmas, with thanks for loyal support during the trying year now closing and best wishes.

Mr. and Mrs. J. C. Duchesne and daughter Micheline, were in Quebec yesterday and to-day, where Mr. Duchesne was called on business. They stopped at the Chateau.

Mr. James Harrison of Canadian Celanese, left last Thursday for Montreal and was away until Monday the 28th. inst., passing on a happy Christmas with his sons and daughters. He was also the host of many friends in and around Montreal.

Mr. Gagnon, Accountant of the Canadian Bank of Commerce in Drummondville, went to Montreal for Christmas.

Mr. D. L. Jencks of the Canadian Bank of Commerce, also went to Montreal, Magog and Sherbrooke for Christmas, being back at work as usual on Monday the 28th.

Miss. B. Dupont left last Thursday to spend the Christmas Holidays with her family in Montreal.

Mr. Eug. Brochu of Ste. Helene de Bagot, was in Drummondville, last week visiting friends and took this opportunity to be present at the inauguration of the Church Organ.

Mr. and Mrs. L. W. Moore, were away in Montreal for the Christmas Holidays.

Birth Rate Decreased in Canada During November

Ottawa. — Births registered in November in fifty-three cities of the Dominion numbered 6,589 as compared with 6,669 for the corresponding month of 1930. The Dominion Bureau of Statistics reported. Montreal Island, which includes Montreal City, had the largest number of births, 1,520, Toronto next with 990.

Deaths in November totalled 3,546 and marriages 2,634, as compared with 3,603 and 2,627, respectively, for the same month a year ago.

The figures represent a decrease of one per cent in births; one and one-half in deaths and, three and one-half in marriages.

For the eleven months, January November, births showed a decrease of one and one-half per cent, deaths three per cent, and marriages ten per cent from the corresponding eleven months of 1930.

tion. Trading was quiet in the group as a whole. Rumors, gaining circulation during the week, to the effect that an amalgamation is pending between the Toronto Stock Exchange and the Standard Stock and Mining Exchange were denied in authoritative quarters. Members of the two exchanges will hold separate meetings next week, however, at which the spheres of operations of the two exchanges are expected to be more clearly defined. The Toronto Stock Exchange is considered as a market specializing in industrial and miscellaneous issues while the Standard Stock and Mining Exchange, as its name implies, is looked upon as the chief market for Canadian mining securities.

Simultaneous...

(Continued from page 1) to enable purchasers of Marconi International models to get the benefit of CFCP programmes. Technically the transmitters consists of three main units, viz. radio frequency unit, modulator unit and rectifier unit, together with the speech input and control equipment.

The radio frequency circuits are installed in a brass angle framework and consist of drive unit in duplicate, first H. F. amplifier, second H. F. amplifier in duplicate and final power amplifier. The transmitter is designed for quick wave-change between two pre-determined wavelengths in the band from 16 to 65 metres, the drive unit and second H. F. stage being installed in duplicate for this purpose. The output of the last stage is feeder coupled into a half wave horizontal aerial system.

Modulation of the high frequency energy is carried out in the last stage of the transmitter, a large water-cooled valve being used for the purpose capable of providing 100 per cent. modulation of the carrier.

High tension direct current at 8,500 volts is provided from the 550 volts alternating current supply by a three phase, full wave rectifier employing six large mercury vapor tubes. The bias voltages required for the various tubes are obtained from a smaller single phase full wave rectifier. The station operates on 6005 kilocycles, 49.96 metres.

Find Germany...

(Continued from page 1) The summary was prepared by Sir Walter Layton, British delegate, and Walter W. Stewart, the United States member of the committee.

The question of unconditional reparations annuities, which the committee was not empowered to touch, was not directly referred to. But it was stated "the committee would not consider it had fully accomplished its task if it did not draw the attention of the Governments to the unprecedented gravity of the crisis, the magnitude of which undoubtedly exceeds the "relatively short depression" envisaged in the Young Plan, to meet which the measures of safeguard contained therein were designed."

Most delegates seemed disappointed because no definite recommendation was written into the report. The French and their supporters were pleased at having passed the question of what must be done over to the conference of Governments that is tentatively slated for some time next month.

E. T. News...

(Continued from page 1) SCOTSTOWN

A new industry is about to establish itself in Scotstown in the near future. The Greif Brothers Co-operative Co., of Cleveland Ohio, contemplates erecting two plants for the making of staves for nail kegs. One plant will be erected on Albert street on the site known as the "Old Chair Factory" and the other on a parcel of land back of the Scots-town Lumber Company. This location will be the receiving depot for the raw material and sawing of the staves, which will then be shipped to one of their assembling branches. Greif Brothers is a large, well-rated, firm in the cooperage business, and is widely known throughout the States. It also owns a number of assembling branches in Canada.

In looking for sites, Scotstown appealed to them because of its location in the lumbering districts, good electrical, water and railroad facilities. The firm contemplates the purchase of their raw material from dealers and jobbers of lumber in the vicinity, and, although they will start in on a comparatively small scale, they will rapidly expand, if the facilities here prove satisfactory.

Province of Ontario

(Continued from page 1)

says the statement, "and, considering the extremely unfavorable conditions existing throughout the past two years, the citizens of Ontario are to be congratulated that the province has been able to successfully weather the storm with its credit unimpaired.

"Two long term loans were floated during the year," the statement continues. "In January 1931, a \$30,000,000 1-2 per cent. instalment issue maturing 1932 to 1971 was sold on a 4.598 per cent. cost basis. In June, 1931, a \$30,000,000 instalment issue maturing 1932-1971 sold on 4.409 per cent. cost basis. This latter represented the cheapest long-term money the province had obtained since the war.

"Looking to the future the outlook is obscure, but there is evidence of a growing realization throughout the world that prosperity is dependent on mutual co-operation, and that no country is self-sufficient. Governments the world over are faced with stern realities, and are setting their hands to the task of putting their financial houses in order," the statement adds.

Motor Vehicles...

(Continued from page 1)

ators' licenses, etc., and \$22,331,437 from gasoline tax. The revenue from registration, etc., was \$2,165,154 less than in 1929, due mainly to reduced fees in Ontario and Saskatchewan. The gasoline revenue, however, was larger by \$3,910,257 due to larger consumptions in Ontario, Quebec and the Maritime Provinces, and although there was less gasoline sold in the western provinces increases in rates produced larger revenues in all but Alberta.

The report shows that 1,290 persons were killed in motor vehicle accidents during the year and, on the basis of gasoline consumption, Saskatchewan had by far the best record with 1,632 deaths per million gallons of gasoline or approximately per 70,000 motor vehicle miles, whereas in New Brunswick the average was 5,149 deaths per million gallons of gasoline or 70,000 motor vehicle miles.

London Press...

(Continued from page 1)

port. It contains the considered advice of eleven impartial financial experts of the greatest powers in the world, as to the manner the present world economics should be handled."

In the view of the News Chronicle, the chief task of the Young Plan committee was to demonstrate how to bridge the ever-widening gulf between huge claims which it held had no real relation to present day conditions and facts which were daily becoming further removed from the world in which the reparation claims were formulated. "The committee has done so," said the paper. "It remains for creditor nations to act on the advice."

Santa Claus...

(Continued from page 1)

A. Moisan, Father Rousseau, vicar at St. Frederic's Church, and Grand Knight D. Courchesne were present at the brilliant ceremony. At the end of the latter a very touching programme was rendered by the Ste. Croix children when they sang and recited things that went to the heart of the four or five hundred persons present and thanked the Knights for their kindness to them. M. J. L. Brunelle, insurance inspector, personified Santa.

Laflamme Garage, was destroyed by fire a short distance from Drummondville, on Thursday last. CLEARING OF THE SNOW It has been decided at the last meeting of the council, to rent a tractor from the Ministry of Roads department to clear the streets of snow this winter. The work will be done rapidly and will greatly help general conditions. Unemployed will be given work in shovelling the snow which will be left on the sides of the streets. Considering what has been done by our Town Council towards giving work and helping the unemployed of Drummondville, one cannot but see in the action of the petitioner or petitioners, preparation for municipal elections.

LONG DISTANCE RECORDS CONTINUE TO FALL

Charles Butler, British pilot, who recently set out in the smallest plane in the world in an attempt to set a new record for the flight from England to Australia, has just completed the flight and set up a new time of 9 days, 1 hour and 32 minutes. Here he is standing beside his plane and (inset) taking off from Heston aerodrome, Middlesex, on the first lap of the record-breaking flight. He wore carpet slippers during the long journey and carried a tomahawk for protection in case he was forced down among savages.
